## **DETAILED ACTION**

### ***Drawings***

1. Figures 24A and 24B should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

2. Claims 1-7 and 30 is objected to because of the following informalities: In line 3 and line 6 of the claim 1, “portion on” should be “portion of”. Since claims 2-7 and 30 depend on claim 1, those claims 2-7 and 30 fall together with claim 1. Appropriate correction is required.

### ***Allowable Subject Matter***

3. Claims 1-7 and 30 are allowed.

4. The following is an examiner’s statement of reasons for allowance: The prior art of record does not discloses or fairly suggest whether in singly or in combination a component for a radiation device having a photoelectric element arranged on a portion of an upper surface of the substrate and having a first pad on a light receiving surface, the photoelectric element generating

an electrical signal based on an intensity of received light; a pad formation section arranged on a portion of the upper surface of the substrate and different from the portion on which the photoelectric element is arranged; a second pad formed on the pad formation section, arranged to form a same plane as a plane of the first pad arranged on the light receiving surface of the photoelectric element, and electrically connected to the first pad, and other elements in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

5. This application is in condition for allowance except for the following formal matters:

As stated in the above, figures 24A and 24B should be labeled as "Prior Art".

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
